

## Witchford Parish Plan – Actions Progress Log (May 2009)

### INTRODUCTION

This document is an extension of the Action Plan published in the Witchford Parish Plan in June 2008. It is the output from a committee formed by the parish council, intended to ensure that the actions detailed in the plan are put into place and the results communicated to the village. The committee has been meeting regularly and progress logged on the following tables. All actions have been agreed and authorised by the parish council.

This version includes the updates discussed at meetings in September & November 2008 and January & May 2009. The November 2008 version was reviewed by the Parish Council at their meeting in January 09 and published on the village website ([www.witchford.org.uk](http://www.witchford.org.uk)), so that the village can see what progress is being made. A brief update was also published in the February edition of the 'Witchfordian'. The May 2009 version now needs to be reviewed by the Parish Council once more, on the first anniversary of the publication of the b plan at the end of June 2009. Again, the villagers need to be informed of progress so that they can judge whether the action plan has been effective.

*Witchford Parish Plan Committee (Andy Howe, Shelagh Monteith, Richard Braund and Dianne Field) 20 May 09.*

- After further consultation and review, it may be decided that some actions are not practical at this time. The position will be reviewed at regular intervals.
